Welcome to Florida (WTF) - Our Journey to Paradise

About the Book

This is the story of a couple from Wisconsin who had dreams of moving to Paradise. For them Paradise was “The Sunshine State”. When you vacation in Florida, you experience the beaches, theme parks, and great weather - Paradise! When you decide that Florida will now be your new home, let’s just say there could be some bumps in the road and a few things that you may not have expected.

Vikki and I will share our journey with you in this book. If you are a visiting “snowbird”, a transplant like us, or you know someone else who made this life-changing decision, we may remind you of your own stories that will enhance the humor.

Regardless, the book is about taking a chance in life and finding your beach - wherever that may be.

About the Authors

Greg and Vikki Winkler, on their way to 37 years of wedded bliss, decided in 2014 that the 50 below wind chills and the Wisconsin winters were enough. They packed up a lifetime of accumulated possessions and went to find their “beach!” There were, and continue to be, many surprises in front of them. While they encourage everyone to follow a dream, they share their experiences so you can navigate your path a little better.
